

*Israel Strategic Affairs i samarbete med Makkabi, Judiska Församlingen och Vänkapsförbundet Sverige-Israel bjuder in till ett seminarium med rubriken:*

## **AMBASSADORS OF TRUTH**

### **Professor Eytan Gilboa: Iran's Quest for Regional Hegemony and Global Destabilization**

The lecture presents an analysis and evidence about Iran's global and regional goals and strategies. Iran wants to dominate the Middle East and confront Western liberal democracies. It seeks nuclear weapons and is trying to establish a strategic Shiite crescent stretching from Teheran to Beirut. Iran is the main source of instability and violence inside and outside the Middle East. It often calls for the destruction of Israel. The West has failed to understand and contain Iran's ambitions.

### **Rabbin Carlos Tapiero: Antisemitism, Human Rights and the useful idiots: a plot for the weak**

Based on the recently released study "Behind the Mask", this session reveals how the BDS leadership hides behind a mask of liberal values and human rights, while disseminating content relating to Israel which is blatantly antisemitic - and the roads that connect BDS to the International Holocaust Remembrance Alliance (IHRA) Working Definition of Antisemitism.
